DETAILED ACTION

Claims 1, 2 and 4-11 are pending in the application.

This Office Action is in response to the Amendment filed on 8/12/05.

Response to Amendment

Claims 4-11 are rejected under 35 U.S.C. 112 1st paragraph for reasons discussed below.

New Grounds of Rejection Necessitated by Applicant's Amendment

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 4-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The newly amended claim 4 recites the limitation of an isolated nucleic acid sequence having 90% homology with SEQ ID NO:1 and "the protein encoded by the nucleic acid molecule comprises a caspase recruitment domain and a RNA helicase domain, and introduction of the isolated nucleic acid molecule into a HO-1 melanoma cell leading to expression of the encoded protein reduces the cell's colony forming ability." However, there is no support in the specification for the claimed nucleic acid(s) because the passages cited by Applicants (page 52, lines 6-8, and page 57, lines 21-25) are directed to Mda-5 polynucleotide and polypeptide only.

Art Unit: 1636

The specification teaches that Mda-5 is encoded by cDNA as disclosed in SEQ ID NO:1, not nucleic acid having 90% homology of SEQ ID NO:1. Therefore, such recitation constitutes new matter.

Conclusion

Claims 1 and 2 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
